

UNIMAT

CLEANING GUIDELINES – Green Cleaner- Weekly

TO KEEP YOUR FLOORS SLIP RESISTANT AFTER APPLICATION IT IS ESSENTIAL THAT THEY ARE CLEANED THOROUGHLY, OBSERVING THE FOLLOWING:

Do's

Clean your floor with quality, SlipStop liquid cleaner. Slipstop - s055 Green Cleaner for best results.

Apply and mop floor (minimum) weekly. If the area is a high traffic area, more regular application might be required.

Once applied rinse with water and mop floor.

It is recommended to give the floor a deep clean with a brush or broom once per month.

Don't's

DO NOT use an abrasive pad. This could damage your floor.

DO NOT use a powdered detergent – it will leave a calcite film on the surface of your floor.

DO NOT Polish or seal over your floor. This will stop the treatment being effective

Never use a cleaner that leaves a film on your floor. Avoid cleaners containing sodium hydroxide or cleaners containing alkaline content. Mild organic cleaners preferable.
